Description

This new complex is located in one of the oldest parts of the city - Exo Vrisi (gr. "exo" outside, "vrisi" - water spring, fountain). This location used to be a water source for the surrounding areas many years ago. It is a quiet, residential area set directly behind the Metropolis Church and located conveniently close to the Old Town of Paphos where you will find shops, supermarkets, museums, the library, post office and police station amongst many other necessities and only a short drive to the harbour area. This delightful new project consists of 1 & 2 bedroom apartments, 12 in total, with the two bedroom apartments having the added advantage of two bathrooms. Being a four storey block it has commanding views of the city and sea views for the top floors. Large verandas, a communal swimming pool and individual car parking make this the definitive choice for either permanent or holiday residence.
