#### Description

A site where a Stone House once stood offering a Fantastic Investment Potential!

**REDUCED!**

The stone is still available on site for use. The choice would be to apply for a government grant and renovate the house to its original design or start from scratch and utilise the 120% build density...

The plot is a stones throw from the heart of Armou Village and offers spectacular unobstructed views of the Mediterranean Coastline from Mandria to Paphos Harbour.
